

Therayou Psychotherapist (f/m/d): Full- or Part-Time

- Full-time contract, starting April 1st 2023 or as soon as possible.
- Basel based workplace in an enthusiastic flatland team.
- Flexible working conditions.

Therayou

The aim of Therayou is to build an ambulatory mental healthcare center and digital twin center in the Metaverse, provide blended mental health services and develop, operate, and commercialize digital applications and systems in the fields of mental health care.

The focus of our work are our clients and patients, with body, mind, and soul. We aim to provide the best possible, individually tailored, and effective support. We combine professional excellence with compassion, appreciation, and sensitivity. We are open to and use digital and other innovations for the benefit of our patients and integrate them into interventions where it makes sense, whereby technology never becomes an end in itself.

At Therayou, you will be joining a team of highly motivated entrepreneurs, scientists, and clinicians that maintains a can-do culture marked by passion, honesty, and a love of good coffee and tea.

Therayou Psychotherapist

We are looking for a psychological or medical psychotherapist, who is interested to combine classical clinical work with digital innovations to make a real impact on the healthcare environment across the globe, who is excited to work in a dynamical start-up environment, and to play an active role in shaping a start-up and its clinical activities.

We are looking for someone who is interested to join us in our journey into uncharted territory, to try out and integrate new ways for the sake of those with mental healthcare needs, for whom the experience of the journey matters more than following a pre-planned path.

Role & Responsibilities

- Conduct classical and blended psychotherapy and all associated tasks (planning, documentation, etc.).
- Test and provide feedback on mental healthcare innovations.
- Play an active role in the development of Therayou and its innovations.
- Prospectively: guide the clinical team of the healthcare center.

Requirements & Qualifications

- University degree in psychology (focus clinical psychology) or medicine (Swiss or recognized in Switzerland).
- Formal qualification as psychotherapist (eidg. Psychoth. or respective FMH specialization or equivalent).
- Ideally experience with digital health.
- Strong communication skills.
- High level of social and team skills.
- Excellent knowledge of German;

We offer

- Opportunity to work in a dedicated, open, and appreciative team.
- Opportunity to co-create and co-develop a new ambulatory classical and blended clinical service.
- A varied range of tasks with a focus on the optimal care of our clients.
- Flexible working conditions.
- Innovative working atmosphere.

If you are interested, we are looking forward to getting your application, including letter of motivation and CV, as well as academic, clinical, and employment certificates. Please send it until 31-Jan-2023 the latest to noa.roemmel@therayou.ch. Later applications will be considered until the position is filled.
